## It's The Only One You've Got by Three Doors Down

how do you know where you're going	You hide behind your walls
when you don't know where you've been	cause maybe he never hurts
You hide the shame that you're not showing	Forgetting that there's something more
and you won't let anyone in	than just knowing better
A crowded street can be a quiet place	Your mistakes do not define you now
when you're walking alone	They tell you who you're not
So now you think that you're the only one	You've got to live this life you're given
who doesn't (1) to try	like it's the only one you've got
and you won't have to fail	What would it take
You're so afraid to fly	to get you to say that I'll try
then I guess you never will	And what would you say if this
You hide behind (2) walls	was the last day of your life
cause maybe he never hurts	You hide behind (5) walls
Forgetting that there's something more	cause maybe he (6) hurts
than just (3) better	Forgetting that there's something more
Your mistakes do not define you now	than just knowing better
They tell you who you're not	Your mistakes do not (7) you now
You've got to live this life you're given	They tell you who you're not
like it's the only one you've got	You've got to live (8) (9) you're giver
The memories have left you broken	like it's the only one you've got
and the scars have never healed	You hide behind your walls
The emptiness in you is growing	cause maybe he never hurts
with so little left to feel	Forgetting that there's so much more
You're scared to (4) back on the days before	than just knowing better
You're too tired to move on	Your mistakes do not define you now
And now you think that you're the only one	They tell you who you're not
who doesn't have to try	You've got to live this life you're given
and you won't have to fail	like it's the (10) one you've got
You're so afraid to fly	
and I guess you never will
