SUB inglés

and I guess you never will

Fill in the gaps

It's The Only One You've Got by Three Doors Down

how do you (1) where you're going	You hide behind your walls	
when you don't know where you've been	cause maybe he never hurts	
You hide the shame that you're not showing	Forgetting that there's (6)	more
and you won't let anyone in	than (7) knowing better	
A crowded street can be a quiet place	Your mistakes do not define you now	
when you're walking alone	They tell you who you're not	
So now you (2) that you're the only one	You've got to live this life you're given	
who doesn't have to try	like it's the only one you've got	
and you won't have to fail	What would it take	
You're so afraid to fly	to get you to say that I'll try	
then I guess you never will	And what (8) you say if this	
You hide (3) your walls	was the last day of your life	
cause maybe he never hurts	You hide behind your walls	
Forgetting that there's something more	cause maybe he never hurts	
than just knowing better	Forgetting that there's something more	
Your mistakes do not define you now	than just (9) better	
They tell you who you're not	Your mistakes do not define you now	
You've got to live this life you're given	They tell you who you're not	
like it's the only one you've got	You've got to live this life you're given	
The memories have left you broken	like it's the only one you've got	
and the scars have never healed	You hide behind your walls	
The (4) in you is growing	cause maybe he never hurts	
with so little left to feel	Forgetting that there's so much more	
You're scared to look back on the days before	than just (10) better	
You're too (5) to move on	Your mistakes do not define you now	
And now you think that you're the only one	They tell you who you're not	
who doesn't have to try	You've got to live this life you're given	
and you won't have to fail	like it's the only one you've got	
You're so afraid to fly		

- 1. know
