

## Fill in the gaps

Close your (1) so you don't (2) them	Youth is (7) on the young
They don't need to see you cry	before you know it's come and gone,too soon
I can't promise I (3) heal you	You were there for summer dreaming
But if you want to I will try	and you gave me what I need
To sing this summer serenade	and I hope you'll find your freedom
The past is done we've been betrayed	for eternity, for eternity
It's true	To sing this summer serenade
Someone said the truth will out	the past is done we've been betrayed
I believe without a doubt	it's true
in you	youth is wasted on the young
(chorus)	before you know it's come and gone
You were there for summer dreaming	too soon
and you gave me (4) I need	you (8) there for summer dreaming
and I hope you'll find your freedom	and you are a friend indeed
for eternity, for eternity	and I hope you'll find your freedom
Yesterday when we were walking	for eternity
You talked about your ma and dad,	you were there for (9) dreaming
What they did that (5) you happy,	and you gave me (10) I need
What they did that made you sad.	and I know you'll find your freedom
We sat and watched the sun go down	eventually
Then (6) a star before we lost	For eternity, for eternity
the moon
