

## Fill in the gaps

Remember the feelings, (1)	the day	But (13) some time you just pushed	d me aside
My stone (2) was breaking		You never thought (14) a (15)	could be
My love ran (3)		(16)	
This moments I (4) I (5)	be someone	Now I'll show you how to go on	
else		Be my bad boy, be my man	
My love turned (6) and I	(7)	Be my week-end lover	
Be my bad boy, be my man		But don't be my friend	
Be my week-end (8)		You can be my bad boy	
But don't be my friend		But understand	
You can be my bad boy		That I don't need you in my life (17)	
But (9)		Won't you be my bad boy, be my man	
That I don't need you in my life again		Be my week-end lover	
Won't you be my bad boy, be my man		But don't be my friend	
Be my week-end lover		You can be my bad boy	
But don't be my friend		But understand	
You can be my bad boy		That I don't need you (18)	
But understand		No I don't need you (19)	
That I don't need you again			
No I don't (10) you again			
You once (11) this (12)			
To stay by my side
