The Big Bang Theory by Barenaked Ladies

Our whole universe was in a hot dense state,
Then nearly fourteen billion years ago
(1)_____ started. Wait...
The Earth began to cool,
The autotrophs (2)_____ to drool,
Neanderthals developed tools,
We built a wall (we built the pyramids),
Math, science, history, unraveling the mysteries,
That all started with the big bang!
"Since the dawn of man" is really not that long,
As (3)_____ galaxy was (4)_____ in
(5)_____ time (6)_____ it (7)_____ to sing
this song.
A fraction of a second and the elements were made.
The bipeds stood up straight,
The dinosaurs all met their fate,
They tried to leap but they were late
And they all (8)_____ (they froze their asses off)
The oceans and pangea

See ya wouldn't wanna be ya
Set in motion by the same big bang!
It all started with the big BANG!
It's (9)_____ ever outward but one day
It will pause then start to go the other way,
Collapsing ever inward, we won't be here, it won't be hurt
Our best and brightest figure that it'll make an even bigger
bang!
Australopithecus would really have been (10)_____ of us
Debating why were here they're catching deer (we're catching
viruses)
Religion or astronomy, Encarta, Deuteronomy
It all started with the big bang!
Music and mythology, Einstein and astrology
It all started with the big bang!
It all started with the big BANG!
