

Fill in the gaps

And thoughts invade

Be careful little eyes what you see	Choices are made
t's the second glance that ties your hands	A price will be paid
As darkness pulls the strings	When you give yourself away
Be careful little feet where you go	People never crumble in a day
For it's the little feet behind you	The journey from your mind to your hands
That are sure to follow	Is shorter than you're thinking
t's a slow fade	Be careful if you think you stand
When you (1) yourself away	You just might be sinking
t's a slow fade	It's a slow fade
When black and white are turned to gray	When you give (4) away
And thoughts invade, choices are made	It's a (5) fade
A price will be paid	When black and white are turned to gray
When you give yourself away	And thoughts invade
People never crumble in a day	Choices are made
t's a slow fade	A price will be paid
t's a slow fade	When you give yourself away
Be careful little ears what you hear	People never crumble in a day
When flattering leads to compromises	Daddies never crumble in a day
The end is always near	Families never crumble in a day
Be careful little lips what you say	(Oh) Be careful (6) eyes (7) you
For empty words and promises	see
_eave broken hearts astray	(Oh) Be careful little eyes what you see
t's a slow fade	For the Father up above is (8) down in love
When you give (2) away	(Oh) Be (9) little (10) what you
t's a slow fade	see
When black and white are (3) to gray
