

## Let It Go by Demi Lovato

|  |   |
|--|---|
| Let it go  | Let it go                               |
| Let it go  | Let it go                               |
| Can't hold you back anymore                        | Can't hold you back anymore             |
| Let it go  | Let it go                               |
| Let it go  | Let it go                               |
| Turn my back and slam the door                     | Turn my back and slam the door          |
| The (1)_____ blows (2)_____ on the                 | And here I stand                        |
| (3)_____ tonight                                   | And here I'll stay                      |
| Not a footprint to be seen                         | Let it go                               |
| A kingdom of isolation                             | Let it go                               |
| And it looks like I'm the Queen                    | The cold never bothered me anyway       |
| The wind is howling like the swirling storm inside | Standing frozen in the life I've chosen |
| Couldn't keep it in, heaven knows I tried          | You won't find me                       |
| Don't let them in, don't let them see              | The (9)_____ is so (10)_____ me         |
| Be the (4)_____ girl                               | Buried in the snow                      |
| You always had to be                               | Let it go                               |
| Conceal, don't feel                                | Let it go                               |
| Don't let them know                                | Can't hold you back anymore             |
| Well, now they know                                | Let it go                               |
| Let it go  | Let it go                               |
| Let it go  | Turn my back and slam the door          |
| Can't hold you back anymore                        | And here I stand                        |
| Let it go  | And here I'll stay                      |
| Let it go  | Let it go                               |
| Turn my back and slam the door                     | Let it go                               |
| And here I stand, and here I'll stay               | The cold never bothered me anyway       |
| Let it go  | Let it go                               |
| Let it go  | ...                                     |
| The (5)_____ never (6)_____ me anyway              | Here I'll stay                          |
| It's funny how some distance                       | Let it go                               |
| Makes (7)_____ seem small                          | Let it go                               |
| And the (8)_____ that once controlled me           | ...                                     |
| Can't get to me at all                             | Let it go                               |
| Up here in the cold thin air                       |   |
| I finally can breathe                              |   |
| I know left a life behind                          |   |
| But I'm so relieved to grieve                      |   |

## Fill in the gaps
