

Fill in the gaps

I wanna take you somewhere	And I wanna cry	
So you know I care	I wanna (6)	_ to love
But it's so cold	But all my tears	
And I don't know where	Have been used up	
l brought you daffodils	On another love	
In a pretty string	Another love	
But they won't flower	All my tears	
Like they did last spring	Have been used up	
And I wanna kiss you	On another love	
Make you feel alright	Another love	
I'm just so tired	All my tears	
To share my nights	Have been used up	
I wanna cry	On another love	
And I wanna love	Another love	
But all my tears	All my tears	
Have been used up	Have (7) (8) up
On (1) love	()	
Another love	I wanna sing a song	
All my tears	That'd be just ours	
(Have) been (2) up	But I sang them all	
On another love	To another heart	
Another love	And I (9)	cry
All my tears	I wanna fall in love	
Have been used up	But all my tears	
On another love	Have been used up	
Another love	On another love	
All my tears	Another love	
Have been used up	All my tears	
And if somebody hurts you	Have been used up	
I wanna fight	On another love	
But my hand's (3) broken	Another love	
One too many times	All my tears	
So I use my voice	Have been used up	
I'll be so fucking rude	On another love	
Words they always win	Another love	
But I know I'll lose	All my tears	
And I'd sing a song	Have been used up	
That'd be just ours		
But I said (4) all		
To (5) heart
