

Fill in the gaps

It started with a low light
Next thing I knew they ripped me from my bed
And then they took my blood type
They left a strange impression in my head
You know that I was hoping
That I could leave this star-crossed world behind
But when (1) cut me open
I guess I (2) my mind
And you know I might
Have (3) flown too far from the floor this time
'Cause they calling me by my name
And the zipping white light beams
Disregarding bombs and satellites
That was the turning point
That was one lonely night
The star (4) says it ain't so bad
The dream maker's gonna make you mad
The spaceman says everybody look down
Its all in your mind
Well now I'm back at home and
I'm looking forward to (5) life I live
You know it's gonna haunt me
So hesitation to this life I give
You think you might cross over
You caught between the devil and the deep blue sea
You better look it over
Before you make that leap
And you know I'm fine but I hear those voices at night
Sometimes (6) justify my claim

And the public don't dwell on my transmission
