

Writing books on the way it should have been

Fill in the gaps

Bat your eyes girl	She woke in the morning
Be otherworldly	She knew (6) her life had (7) her
Count your blessings	by
Seduce a stranger	And she (8) out a warning
What's so wrong with bein' happy?	Warning
Kudos to those who	Don't ever let life pass you by
See through sickness, yeah	Floating in this
Over and (1) and over and over	Cosmic Jacuzzi
	We are like
She woke in the morning	Frogs oblivious
She knew (2) her life had passed her by	To the water
And she called out a warning	Starting to boil
Don't ever let life pass you by	No one flinches
suggest we	We all float face down
Learn to love (3) (4)	She (9) in the morning
t's	She knew that her life had passed her by
Made illegal	And she called out a warning
When will we learn? (when will we learn?)	Warning
When will we change? (when will we change?)	Don't ever let life pass you by
Just in time to see it all come down	Pass you by
Those (5) standing	(Ohh, ohh, ohh)
Will make millions
