

Please Please

Fill in the gaps

So you never knew love	Please
Until you crossed the line of grace	Get up off your knees, now
And you never felt wanted	Please
Until you'd (1) slap your face	Please
And you never (2) alive	Please
Until you'd almost wasted away	Leave it out
You had to win	'Cause (5) is pain
You couldn't (3) pass	And love is tough
The (4) ass	But love is not
At the top of the class	What you're thinkin' of
Your flyin' colors	September
Your family tree	Streets capsizin'
And all your lessons	Spillin' over down the drains
In history	Shards of glass
Please	Splinters like rain
Please	But you could (6) feel
Please	Your own pain
Get up off your knees, now	October, talk gettin' nowhere
Please	November
Please	December
Please	Remember, we just startin' again
Leave it out	Please
So you never knew	Please
How low you'd stoop to make that call	Please
And you never knew	Get up off your knees now
What was on the ground	Please
Until they made you crawl	'Cause love is big
So you never knew	Is bigger than us
That the heaven you keep	But (7) is not
You stole	What you're thinkin' of
Your catholic blues	It's what (8) deal
Your convent shoes	It's what lovers steal
Your stick on tattoos	You know I've found it hard to receive
Now they're makin' the news	'Cause you
Your holy war	My love
Your northern star	I could never
Your sermon on the mount	Believe
From the boot of your car
