

I need to know I can still make explosions

Fill in the gaps

You (1) (2) you'd	On the day you wake up needing somebody
(3) a ghost	And you've learned
And I gave in	It's okay to be afraid
I lack the things you need the most, you said	But it will never be the same
Where (4) you been	And as the (8) move in
You wasted all (5) sweetness to run and hide	And (9) body starts to sink
I wonder why	I was the last thing on your mind
I remind you of the days you poured your heart into	I know you better than you think
But you never tried	'Cause it's simple, darling
I've fallen from grace, (6) a blow to my face	I gave you a warning
I've loved and I've lost, I've loved and I've lost	Now everything you own
Explosions	Is falling from the sky in pieces
On the day you wake up needing somebody	So watch them fall with you in slow motion
And you've learned	I pray that you'll find peace of mind
It's (7) to be afraid	And I'll find you another time
But it will never be the same	I'll love you, another time
It will never be the same	Explosions
You left my soul bleeding in the dark	On the day you wake up (10) somebody
So you could be king	And you've learned
The rules you set are still untold to me and I've	It's okay to be afraid
Lost my faith in everything	But it will never be the same
The nights you could cope	
Your intentions were gold	
But the mountains will shake
