Rehab by Rihanna & Justin Timberlake

Baby baby
When we first met, I never felt something so strong
You were like my lover and my best friend
All wrapped into one with a ribbon on it
And all of a sudden, when you left
I didn't know how to follow
It's like a shot that spun me around
And now my heart's dead
I feel so empty and hollow
And I'll never give myself to another
The way I (1)_____ it to ya
Don't even (2)_____ the (3)_____ you
hurt me, do ya?
It's gonna take a miracle to bring me back
And you are the one to blame
And now I feel (4)_____ (ooh!)
You're the reason why I'm thinking
I don't wanna smoke on these cigarettes no more
I guess that's what I get for wishful thinking
Should've never let you enter my door
Next time you wanna go on and leave
I should just let you go on and do it...
'Cause now I'm using like I bleed
It's like I checked into rehab
And baby, you're my disease
It's like I (5)_____ into rehab
Baby, you're my disease
I gotta check into rehab
'Cause baby you're my disease
I've gotta check into rehab
'Cause baby you're my disease
Damn, ain't it crazy (6)_____ you're love-swept
You'd do (7)_____ for the one you love
Cause anytime that you (8)_____ me, I'd be there
Its (9)_____ you were my (10)_____ drug
The (11)_____ problem was that you was
(12)_____ me
In a different way (13)_____ I was using you
But now that I know that it's not meant to be
You gotta go, I gotta wean myself off of you
And I'll never give myself to another
The way I (14)_____ it to ya

Don't even recognize the (15)_____ you (16)_____
me, do ya?
It's gonna take a miracle to bring me back
And you are the one to blame
'Cause now I feel like (ooh!)
You're the (17)_____ why I'm thinking
I don't wanna (18)_____ on these cigarettes no more
I guess this is what I get for (19)_____ thinking
Should've never let you enter my door
Next time you wanna go on and leave
I (20)_____ just let you go on and do it
Now I'm using like I bleed (now I'm using like I bleed)
It's like I checked into rehab
And baby, you're my (21)_____ (you're my
disease)
