must have (1) a thousand dreams	Use them and let's start trying
Been hunted by a million screams	To make it a place worth living in
can hear the (2) feet	I (14) long ago
They're moving into the street	When the sun was shining
Now did you (3) the news today?	And all the stars (15) (16) all
They say the danger's (4) away	(17) the night
But I can see the fire's still alight	In the wake of this madness
Burning (5) the night	As I held you tight, so long ago
There's too many men, too many people	I won't be coming home tonight
Making too (6) problems	My generation will put it right
And not much love to go around	We're not just (18) promises
Can't you see, this is a land of confusion?	That we know we'll never keep
This is the world we (7) in	There's too many men
And these are the hands we're given	Too many people
Use them and let's start trying	Making too many problems
To (8) it a place worth living in	And not (19) love to go around
Superman, where are you now	Can't you see, this is a land of confusion
When everything's gone (9) somehow?	This is the (20) we live in
The man of steel, men of power	And these are the hands we're given
Are (10) control by the hour	Use them and let's start trying
This is the time, this is the place	To (21) it a (22) worth fighting for
So we look for the future	This is a world we live in
But there's not (11) love to go around	And (23) are the (24) we're given
Tell me why this is a (12) of confusion	Stand up and let's (25) showing
This is the world we live in	Just where our lives are going to
And these are the (13) we're given
