

## Fill in the gaps

Then I could see a little light

| Stay alone in my room                       | I (7) find some piece of mind         |
|---|---------------------------------------|
| Every moment passing too soon               | I don't know where you are            |
| Watch the (1) burn (2) the night            | Maybe near or maybe far               |
| Fall (3) a dream                            | I just need a little light            |
| Wake up and everything's the same           |                                       |
| A second older but alone just like a child  | If I could see a (8) light            |
| If you (4) give me a sign                   | If I could find some (9) of mind      |
| To live and not to die                      | If you just (10) me a sign            |
| Then I could see a little light             | I could see a little light            |
| I could find some (5) of mind               | I don't know where you are            |
| I don't know where you are                  | Maybe near or maybe far               |
| Maybe near or maybe far                     | I could see a little light            |
| I just need a little light                  | If I could see a little light         |
| Hear a clock ticking                        | I could see a little light            |
| On a life that (6) have meaning             | Stay alone in my room                 |
| If I could find the love light in your eyes | Every moment passing too soon         |
| See a million people                        | Watch the candles burn into the night |
| Everyone's so lonely                        |                                       |
| But we don't have to be alone tonight       |                                       |

## 1. candles

- 2. into
- 3. into
- 4. just
- 5. piece
- 6. could
- 7. could
- 8. little
- 9. piece
- 10. give
