

## Fill in the gaps

	You wonder what has happened to me
Something is about to give	I'm a man, I'm not a child
I can feel it coming	A man who sees
I think I (1) what it is	The shadow behind your eyes
I'm not afraid to die	Who's to say (6) the wind (7)
I'm not afraid to live	(8) you
And when I'm flat on my back	Who's to know what it is will break you
I hope to feel like I did	I don't know where the wind will blow
Cause hardness, it sets in	Who's to know when the time has come around
You need (2) protection	I don't wanna see you cry
The thinner the skin	I know that this is not goodbye
I want you to know	Did I waste it?
That you don't need me anymore	Not so much I couldn't (9) it
I want you to know	Life should be fragrant
You don't need anyone, anything at all	Roof top to the basement
Who's to say where the wind will take you	The last of the rock stars
Who's to know what it is (3) break you	When hip hop drove the big cars
I don't know which way the wind will blow	In the time when new media
Who's to know when the (4) has come around	Was the big idea
Don't wanna see you cry	That was the big idea
I (5) that this is not goodbye	Big idea
In summer I can taste the salt in the sea	
There's a kite blowing out of control on a breeze	
I wonder what's gonna happen to you
