

## Fill in the gaps

|  | I try and try but my obsession                   |
|--|--|
| Want to but I can't help it                      | Won't let me leave                               |
| I (1) the way it feels                           | I got a problem and I                            |
| Just got me stuck between                        | (Don't know what to do about it)                 |
| My (2) and what is real                          | Even if I did I don't know                       |
| I need it (3) I (4) it                           | If I (15) quit but I (16) it I'm                 |
| I (5) it (6) I don't                             | Taken by the thought of it                       |
| Tell myself I'll (7) every day                   | And I know (17) much is true                     |
| Knowing that I won't                             | Baby, you have become my addiction               |
| I got a problem and I                            | I'm so strung out on you                         |
| (Don't know what to do about it)                 | I can (18) move                                  |
| Even if I did I don't know                       | But I like it                                    |
| If I would quit but I doubt it                   | And it's all because of you (all because of you) |
| I'm taken by the thought of it                   | And it's all because of you (all (19) of you     |
| And I know (8) much is true                      | And it's all because of you (all (20) of you     |
| Baby, you have become my addiction               | And it's all because                             |
| I'm so strung out on you                         | Never get enough (never get enough)              |
| I can barely move                                | She's the sweetest drug                          |
| But I (9) it                                     | Ain't no doubt (no doubt)                        |
| And it's all (10) of you (all because of you)    | So (21) out (strung out)                         |
| And it's all because of you (all because of you) | Ain't no doubt                                   |
| And it's all because of you (all (11) of you)    | So strung out                                    |
| And it's all because                             | Over you (over you), you, you                    |
| Never get enough                                 |  |
| She's the sweetest drug                          | Because of you                                   |
| Think of it every second                         | And it's all because of you                      |
| I can't get (12) done                            | Never get enough                                 |
| Only concern is the (13) time                    | She's the (22) drug                              |
| I'm (14) get me some                             | She's the sweetest drug                          |
| Know I should stay away from                     |  |
| 'Cause it's no good for me                       |  |
