

## Fill in the gaps

My gift is my song	So (4) me for forgetting
And (1) one's for you	But (5) things I do
And you can tell everybody	You see I've forgotten
That this is your song	If they're green or they're blue
It maybe quite simple	Anyway the thing is what I really mean
But now that it's done	Yours are the (6) eyes I've (7)
Hope you don't mind	seen
I hope you don't mind	And you can tell everybody
That I put (2) in words	This is your song
How wonderful life is now you're in the world	It may be quite simple
Sat on the roof	But now that it's done
And I kicked off the moss	I (8) you don't mind
Well some of the verses well	I hope you don't mind that I put down in words
They got me quite cross	How wonderful life is now you're in the world
But the sun's been kind	I hope you don't mind
While I wrote this song	I hope you don't mind that I put down in words
It's for people like you that	How (9) life is now you're in the world
Keep it (3) on
