We can't (3)_____ the things we do
I can't (4)_____ her pretty feet
(5)_____ over me, all over me
Help me, help me doctor
It seems to be an awful lot for me to understand
I know I'm not a specimen
The troubles and the mess I'm in
I should be dead
He said, let's all think
Then you've had all your fun
It's time to be a man
So you better quit your bitc*ing
Think (6)_____ what the people would say
It's not on me, it's all on you
I can't prescribe what you want me to
You need some sleep, you (7)_____ leave
He walked over me, all over me
Wait until tomorrow, and it's gone
So long
Wait until tomorrow, so long
And it's gone
Wait (8)_____ tomorrow
You beg and steal and borrow till it's gone
-He don't got a lot but he's got all he needs-
I need someone to love
-And all he's got well it's all that he needs-
Somebody help me because
I could hear the voices in the tube
To get me through anything
I do and anything will do good by me
A little pill, a little thrill
Should I take it? I think I will
And anything will do good so
As long as it's always too good
Either way I don't give a d*mn
(9)_____ you people all say
All now boy
It's not on me, it's all on you
I can't deny the things I do
I can't believe her pretty feet
Walked over me, all over me
It's not on me, it's all on you
