

## Fill in the gaps

| I never had anything happen so fast              | Without a warning                          |
|--|--|
| Took one look and I shattered like glass         | Like (6) when the morning begins the day   |
| I guess I let it show                            | I was swept away                           |
| Cause your smile (1) me you knew                 | Away, seeing my tomorrow's in your eyes    |
| That you're (2) I ever wanted at                 | I was swept away                           |
| once   | Oo, I hope I (7) up soon                   |
| There's no holding this heart                    | Oo, I'm a victim of that crazy moon        |
| When it knows what it wants                      | The very first time you said my name       |
| And I (3) wanted anything more than to know      | I knew it would never sound the same       |
| you  | Something about me has changed forever     |
| I was swept away                                 | Can't you see I am swept away              |
| No one in the world but you and I                | No one in the (8) but you and I            |
| Gotta find a way                                 | Gotta find a way                           |
| To make you feel the way that I do               | To make you feel the way that I do         |
| I was swept away                                 | I am swept away                            |
| Without a warning                                | Without a warning                          |
| Like night when the morning begins the day       | Like night when the (9) begins the da      |
| I was swept away                                 | I was swept away                           |
| And so it begins                                 | Away, seeing my tomorrow's in (10) eyes    |
| This journey of love                             | Gotta find a way                           |
| The summer wind carries us to places all our own | To make you feel the way that I do         |
| The words of a look                              | I was swept away                           |
| The language of touch                            | Without a warning                          |
| The way that you want me means so much           | Like night when the morning begins the day |
| And I never (4) anything more                    | I was swept away                           |
| Than to love you                                 | We were swept away                         |
| I am (5) away                                    | Dreaming of you                            |
| No one in the world but you and I                | Swept away                                 |
| Gotta find a way                                 |  |
| To make you feel the way that I do               |  |
| I am swept away                                  |  |
