

## Fill in the gaps

All the lights agree travelling super speed	For the first time, (4) (5) let your light
Every road is clear	shine
Heading to nowhere	Oh so (6) that still
But I feel, I feel so alive for the first time	Higher (7) let your light shine
Put your hand to mine and let's blaze across the sky	See it all the other stars
You'll see there are no way through another lips	For the first time, first time let your light shine
Because it feels, this feels like us for the first time	And no longer feel the night
For the (1) time, first time, let your light shine	Brighter, brighter let your light shine
Oh so brighter that still	Tonight, tonight we watch the world come to life, to life
Higher higher let your light shine	Alive, alive (8) the (9) come to life
See it all the (2) stars	It will be alright
For the first time, first time let your light shine	For the first time, first time let your light shine
And no longer feel the night	Oh so brighter that still
Brighter, brighter let your light shine	Higher higher let your light shine
For the first time	See it all the other stars
No more rules to break	For the first time, first time let your light shine
It's your life to waste	And no longer feel the night
Everything we need	Brighter, brighter let your light shine
All that silver screen	For the (10) time, for the first time
And it feels, (3) like your mind for the first time	

- 1. first
- 2. other
- 3. feels
- 4. first
- 5. time
- 6. brighter
- 7. higher
- 8. watch
- 9. world
- 10. first
