In a parralell universe Let me be lighter Where nothing breaks and nothing hurts I'm tired of being a fighter There's a (1) playing frozen in time I think a minute's enough Blades of grass on tiny bare feet Just beam me up I look at you and you're (2) at me In my head I see your baby blues Could you beam me up? I hear your voice and I Give me a minute I break in two and now there's I don't know what I'd say in it One of me with you I'd probably just stare So when I need you, can I send you a sign? Happy (3) to be there holding your face I'll burn a candle and turn off the lights Beam me up I'll pick up star and watch you shine Let me be lighter Just beam me up I'm tired of being a fighter Give me a minute I think a minute's enough I don't know what I'd say in it Just beam me up I'd probably just stare Saw a blackbird soaring in the sky Happy just to be (9)	There's a whole another conversation going on	Beam me up
