Fill in the gaps

The sound of silence by Simon & Garfunkel

Hello darkness, my old friend	(9) voices never share
I've come to talk with you again	And no one dare
Because a vision (1) creeping	Disturb the sound of silence
Left its seeds while I was sleeping	"Fools" said I
And the vision that was planted in my brain	You do not know silence like a cancer grows
Still remains	Hear my words that I might teach you
Within the sound of silence	Take my arms that I might reach you
In restless (2) I walked alone	But my words like (10) raindrops fell
Narrow streets of cobblestone	And echoed in the wells of silence
Neath the halo of a street lamp	And the people bowed and prayed
I turned my collar to the cold and damp	To the neon god they made
When my eyes were stabbed	And the sign flashed out its warning
By the flash of a neon light	In the words that it was forming
(3) (4) the (5)	And the sign said
And (6) the sound of silence.	"The words of the prophets
And in the naked light I saw	Are written on the subway walls
Ten thousand people, maybe more.	And tenement halls
People (7) without speaking	And whispered in the sounds of silence"
People hearing without (8)
