

## Fill in the gaps

I figured it out	Never together
I figured it out from black and white	Cause they see things in a different light
Seconds and hours	Like us
Maybe they had to take (1) time	They never tried
I know how it goes	Like us
I (2) how it goes (3) wrong and right	You and I
Silence and sound	We don't wanna be like them
Did (4) ever hold each other tight	We can (9) it till the end
Like us	Nothing can come between
Did they ever fight	You and I
Like us	Not even the Gods above can
You and I	Separate the two of us
We don't (5) be like them	'Cause You and I
We can make it till the end	We don't wanna be like them
Nothing can come between	We can make it till the end
You and I	Nothing can come between
Not even the Gods above can	You and I
Separate the two of us	Not even the Gods above can
No (6) can come between	Separate the two of us
You and I	No nothing can (10) between
Oh, you and I	You and I
I figured it out	Oh, you and I
Saw the mistakes of up and down	Ooooh You and I
Meet in the middle	We could make it if we try
There's always (7) for common ground	Oh, you and I
I see (8) it's like	You and I
I see what it's like for day and night
