

And you said you had my back

## Fill in the gaps

I miss the taste of a sweeter life	So I wonder where were you?
I miss the conversation	When all the roads you took came back to me
I'm searching for a song tonight	So I'm following the map that leads to you
I'm (1) all of the stations	The map that leads to you
I like to think that we had it all	Ain't nothing I can do
We drew a map to a (2) place	The map that leads to you
But on that road I took a fall	Following, following, following to you
Oh baby why did you run away?	The map that leads to you
I was there for you	Ain't nothing I can do
In your darkest times	The map that leads to you
I was there for you	Oh oh oh
In your darkest nights	Oh oh oh
But I wonder where (3) you?	Yeah yeah
When I was at my worst	Oh oh oh
Down on my knees	Oh, I was (6) for you
And you said you had my back	Oh, in your darkest time
So I wonder where were you?	Oh, I was (7) for you
When all the roads you took came back to me	Oh, in your (8) nights
So I'm following the map that (4) to you	Oh, I was there for you
The map that leads to you	Oh, in your darkest time
Ain't nothing I can do	Oh, I was there for you
The map that leads to you	Oh, in (9) darkest nights
Following, following to you	But I wonder where were you?
The map that leads to you	When I was at my worst
Ain't nothing I can do	Down on my knees
The map that leads to you	And you said you had my back
Following, following	So I wonder where were you?
I hear your voice in my sleep at night	When all the roads you took came back to me
Hard to resist temptation	So I'm following the map that leads to you
'Cause something strange has come over me	The map that leads to you
And now I can't get over you	Ain't nothing I can do
No, I just can't get over you	The map that leads to you
I was there for you	Following, following, following to you
In your darkest times	The map (10) leads to you
I was there for you	Ain't nothing I can do
In your (5) nights	The map that leads to you
But I wonder where were you?	Following, following
When I was at my worst	
Down on my knees
