

## Fill in the gaps

| On the street where you live girls talk about their social lives |
|--|
| They're made of lipstick, plastic and paint, a touch of          |
| (1) in their eyes  |
| All your life all you've (2) when's (3)                          |
| (4) (5) talk to you  |
| You were living in another world tryin' to get (6)               |
| (7) through  |
| No one heard a (8) word you said                                 |
| They should have seen it in (9) eyes                             |
| What was going (10) your head                                    |
| Chorus:  |
| Ooh, she's a little runaway                                      |
| Daddy's girl learned fast  |
| All (11) things he couldn't say                                  |
| Ooh, she's a (12) runaway  |
| A different line every night guaranteed to blow (13)             |
| mind   |
| I see you out on the streets, call me for a wild time            |
| So you sit home (14) 'cause there's nothing left                 |
| that you can do  |
| There's only pictures (15) in the                                |
| (16) left there to look at you                                   |
| You know she likes the lights at (17) on the                     |
| (18) Broadway signs  |
| She don't really mind, it's only love she hoped to find          |

| Repeat chorus                         |
|---------------------------------------|
| No one heard a single word you said   |
| They should have seen it in your eyes |
| What was going around (19) head       |
| Ooh, she's a little runaway           |
| Daddy's (20) learned fast             |
| All (21) things he couldn't say       |
| Ooh, she's a little runaway           |
| Daddy's girl learned fast             |
| Now she works the night away          |
| Ooh, she's a little runaway           |
| Daddy's (22) learned fast             |
| All (23) things he couldn't say       |
| Ooh, she's a little runaway           |
| Daddy's girl learned fast             |
| Now she works the (24) away           |
|                                       |
|                                       |
|                                       |
|                                       |
|                                       |
|                                       |
|                                       |
