## Kill Me (And Make It Quick) by Amelie

| I heard your sound                        | everybody says it's easy if you let go           |
|---|--|
| i caught your rhythm                      | i don't really (3) if i'm playing like i'm too   |
| knock me on the ground                    | (4) now  |
| flipping me upside down                   | you (5) lost so you could be found               |
| but i'll find a way somehow               | oh, something, something leads to nothing        |
| 'cause i know your name                   | nothing brings us down, down                     |
| and i got your number                     | but can we turn it around,                       |
| we could spark a flame                    | turn it around, eh                               |
| we could say it all out loud              | i think i'm gonna be sick                        |
| so don't it make you wonder now           | i can't keep (6) this                            |
| oh, something, something leads to nothing | kill me and (7) it quick                         |
| nothing brings us down, down              | i think it's all going well                      |
| but can we turn it around,                | i'm falling under your spell                     |
| turn it around, eh                        | i'm walking right throught hell                  |
| i think i'm gonna be sick                 | if everything's gonna fall apart                 |
| i can't keep doing this                   | i need the key so i can get back into your heart |
| kill me and make it quick                 | i'd be in heaven for a day                       |
| i (1) it's all going well                 | but everything you do just makes say             |
| i'm (2) under your spell                  | i think i'm gonna be sick                        |
| i'm walking right throught hell           | i can't keep doing this                          |
| i dream about your love                   | kill me and (8) it quick                         |
| and drowing in your blue eyes             | i think it's all going well                      |
| all i really know                         | i'm falling under your spell                     |
| is you shot me with a surprise smile      | i'm walking right throught hell                  |
| i'm just dying in the mean while          |  |

## Fill in the gaps
